

# 7 REASONS

## YOU SHOULD HIRE ME

---

### 1. EXPERIENCED

Over the past ten years, I've been accumulating specialized experience in marketing and graphic design, mainly working on email marketing and digital as well as print graphics. Nonetheless, I happily wear different career hats, as needed. Data entry, pulling together PowerPoint presentations, employee training, answering phones, public relations, customer service, event planning, social media, copywriting, photography. I have worn many hats in my career.

### 2. KNOWLEDGEABLE

I'm well versed in Microsoft Office and Adobe Creative Cloud, and I am pretty handy around office technology. It never takes me long to get the hang of new software and systems.

### 3. PEOPLE SKILLS

I'm friendly, have a positive attitude, and enjoy working with a team. I also have great customer service skills. I get along well with coworkers and have been told I add a "positive vibe".

### 4. CREATIVE

Whether it be managing a project, writing copy, designing, or solving a logistical issue, I love putting on that creative cap to solve problems, so at the end of the day I have a finished product to look at.

### 5. I'M A CATCH

I'm motivated, reliable, dedicated and enthusiastic about learning new things to accomplish a task in an efficient manner.

### 6. MULTI-LINGUIST

Knowing multiple languages can never hurt! Just in case any of these speak to you, I can carry on a conversation in Swedish, French, Turkish, and a little in Spanish.

### 7. ENTHUSIASTIC

I look forward to connecting with you to talk more about the opportunity and how my experience, knowledge, people skills, creativity, languages, and enthusiasm can be of help to your team.
